8. The Plugin installation is voluntary and its operation requires an Account and User Profile on the Gamehag.com Portal and logging in as a Portal User (the functionality of the plugin operates in relation to the user who is logged into the Plugin and into his account on the Gamehag Portal).
9. The Plugin has the following functionalities:
 - a. It provides for faster and more reliable acceptance of tasks on the Gamehag Portal located on the Internet at www.gamehag.com (“the Portal”);
 - b. It collects information about your preferred games;
 - c. It collects data used to add new games to the Portal;
 - d. It offers the User the best and latest games;
 - e. It gets access to the sites viewed by the User;
10. In particular, the following data about the Gamehag Portal User are collected using the Plugin:
 - a. The Plugin records data about the visited websites devoted to games, which are present as tasks on the Gamehag Portal. The exact data which are saved:
 - i. the exact URL of the page,
 - ii. the duration of time when the User is active on a given page,
 - iii. internal game id (provided by the Portal / Plugin software), which, according to the automated algorithms, is related to this topic.
 - b. In particular, data from websites which are available as games on the Gamehag Portal (e.g. url: bigbangempire.com) are saved, so that the Controller can measure how long the User performs the task available on the Portal.
 - c. In addition, the pages from which the User enters the Gamehag website (belonging to the Gamehag Portal) are saved.
11. “Tracking” the User:

- a. "Tracking" is performed only by the Plugin. It is the Plugin (its algorithms) that decides when to send data to be saved to the database, checks the urls of the sites visited by the User and their meta descriptions.
 - b. The data collected on the basis of the User "tracking" will be used to:
 - i. verification of the correctness of task performance,
 - ii. checking the sites on which the Controller can promote the Gamehag Portal or on which the Controller is already promoting the Gamehag Portal (checking effectiveness and conversion).
12. However, only data related to the User's use of the Portal are saved - and only in the context referring to the User's activity as part of using the Gamehag Portal services (and only related to the logged user who voluntarily installs the Plugin). A user who is logged into the Portal and has an active Plugin is automatically logged into the plugin using the cookies saved in the browser.
13. By installing the Plugin voluntarily and using it, the User accepts these Plugin Regulations and the privacy rules described herein, and he voluntarily agrees to the profiling with regard to, for instance, determining his preferences regarding the games and suggesting him the best and latest games in connection with the use of the Portal.
14. The basis of processing within the scope of marketing of own services is constituted by Art. 6 section 1 letters a), b) and f) of GDPR.
15. A legitimate interest consists of a natural need for the type of services provided by the Controller on the Portal, informing the User about new functionalities and opportunities in connection with new games on the Portal - with the User's consent and subject to the performance of the agreement regarding the functionality of the Plugin which the User himself installs voluntarily.
16. In addition, the checking the websites on which the Controller can promote the Gamehag Portal or on which the Controller already promotes the Gamehag Portal (checking efficiency and conversion), using the Plugin, also constitutes the legitimate interest of the Controller, subject to the requirements of Art. 6 section 1 letter f) of GDPR.
17. At the same time, the installation and use of the Plugin shall not mean that the User is subject to a decision based solely on automated processing, including the profiling - as referred to in Art. 22 section 1 of GDPR.
18. The User shall have the right to object to the profiling aimed at suggesting games and addressing to him the Controller's own direct marketing - in accordance with Art. 21 section 2 of GDPR.
19. For that purpose, the Plugin must be uninstalled and the Controller must be contacted to remove the user accounts from the results of the profiling: <https://gamehag.com/en/contact>

20. The Agreement is concluded upon the installation of the Plugin and its term continues for the duration of the installation and use of the Plugin by the User, and the data collected through the Plugin are processed as long as the User has a User Account and User Profile on the Gamehag Portal, unless the User exercises the right of objection referred to in point 18 above of these Plugin Regulations.
